

MPL-2000

Ultra-light High-security Fingerprint Identification Padlock with iKey

The MPL-2000 offers compact, one touch fingerprint locks that come in a variety of vibrant colors. These eye-catching locks were designed to protect handbags, laptop bags, purses, briefcases, and other small to mid-size portable personal items. If you travel often, then a padlock for your luggage becomes one of those essential pieces on your packing itinerary. The days of relying on easily losable keys and those tiny little combination dials are over. MPL-2000 approved travel smart lock offers both peace of mind for the security of your luggage by using fingerprint recognition technology, alongside incredible ease of use when you actually need to get at your stuff.

FEATURES

- STATE-OF-THE-ART- Capacitive fingerprint sensor allows unlocking in under 0.7 seconds
- INDEPENDENT- No unreliable apps, no bad connections, no arcane lock/unlock procedures
- MULTI-USER- Store up to 30 sets of fingerprints for backup fingerprints and multiple users
- ADAPTIVE ALGORITHM- Lock becomes faster and more accurate with each access
- RECHARGEABLE - Ultra-long battery life lasts 1200 uses, and the lock can be charged via USB, mobile power bank, etc
