Front Door Security Situation Diagram

MDP-2108+/MDP-2104 & Household

When you not at home, you can talk to visitors through your mobile phone and MDP-2104. If you come home soon, you can use APP to unlock the door.

Door

The door is the first security barrier to enter the community.

Midas Touch in view of the importance of the door access control, to develop and manufacture all kinds of IP video intercoms. The MDP-2104, MDP-2108, and MDP-2018+ is suitable for villas and the MDP-2303 is suitable for management of community gate access control.

The IP video intercom can be used with the IP Phone / smartphone (support IOS & android system) / tablet as a door open tool. Users are not subject to time and place restrictions, no matter where they are, can help visitors open the door remotely. It is safe, simple and convenient.
