Midas Touch

“

- Coin → Diamond
- Orange(Sand) → Yellow(Gold)
- Round → Sky/world
- Square → Business principle
- Empty → Humble ourselves

”

Midas Touch

“Midas Touch” is our brand. When viewed from a distance, our logo is like an ancient Chinese coin, a square encircled by a sphere, which reflects our business principle. Our logo looks like a diamond once you gaze into it. We hope that our partners will truly see our products or solutions like a valuable diamond once you use it!

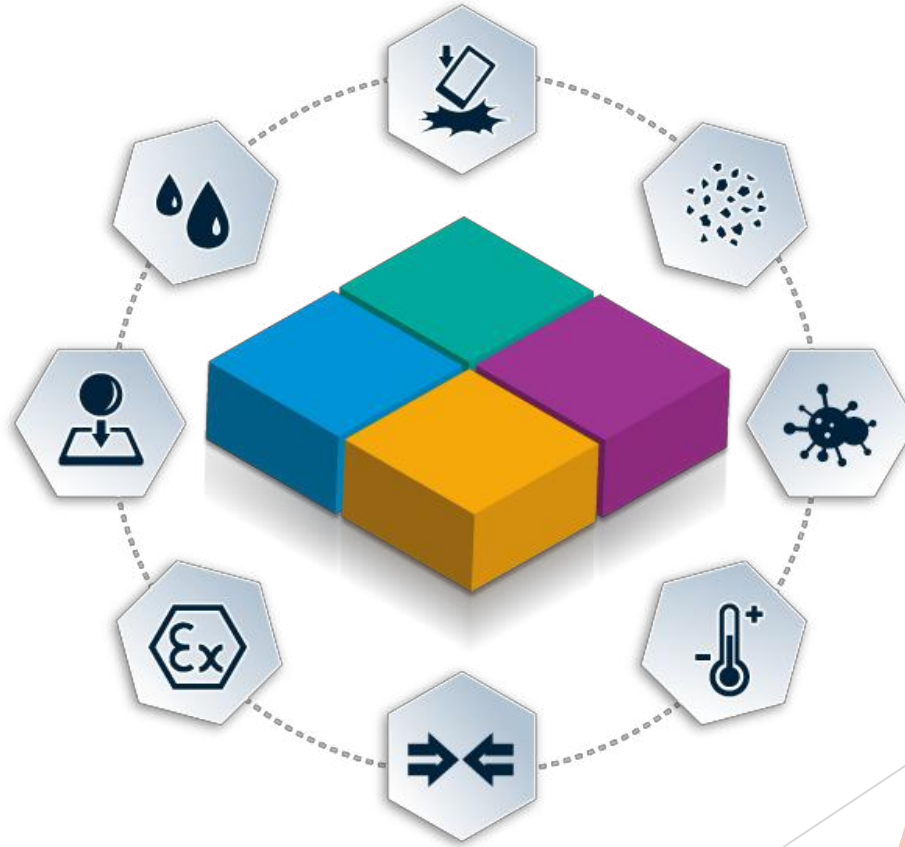

Let's shine & let's turn around the world!

Why do we deploy Agile/Scrum?

- Agile/Scrum has been proved to be the best framework that can be used for project management and new product development in software and hardware and many other areas.
- Scrum enable the team to be self-organizing and unlock the potential of any team to do twice the work in half the time.
- Scrum is based on Lean manufacturing with customer continuous feedback added, we are able to take customer's feedback and Kaizen our products in each release.
- Scrum is all about innovation that enables us to deliver the highest quality of the products in the shortest time.

Rugged Tablet PC

- ▶ Our Industrial Tablet PC family provide integrated mobile computing solutions and several rugged devices, including Semi-rugged Tablets and Rugged Tablets for Field Services. They are built with durability and stability; sustainable in the toughest environments. The entire series of rugged tablets are an ideal platform to capture, process, and transfer data according to specific business requirements.
